### About Me

I am a passionate Front-end Developer and UI/UX Designer based in Indonesia with strong expertise in creating modern, user-centered, and visually appealing digital products. Skilled in HTML, CSS, JavaScript, React, and design tools such as Figma and Canva, I focus on delivering seamless, functional, and impactful user experiences. I thrive on turning complex problems into elegant solutions and love collaborating with teams to bring ideas to life.

### Education

#### Bachelor of Informatics Engineering

Universitas Semarang — GPA: 3.92

Graduated May 2025

### Professional Training

#### Web Front End Development — Studi Independen Kampus Merdeka

*Gamelab Indonesia, February - June 2024*

- Completed an intensive program focused on front-end web technologies (HTML, CSS, JavaScript, and modern frameworks).
- Designed wireframes using Figma for the "Jejak Nusantara" news portal project, showcasing strong UI/UX design skills.
- Collaborated in a team to build a responsive and functional website prototype.

### Wireframing in UI/UX Design

*MySkill, May 2025*

- Focused on creating effective wireframes for user-centered digital products using industry-standard tools and best practices.

### Fundamental UI Design

*Coding Studio, May 2025*

- Focused on mastering UI design fundamentals, including typography, color theory, layout principles, and creating visually consistent interfaces.
